

# What is Derby City Partnership?

Derby City Partnership

*Derby City Partnership is a body that works to create a safe, healthy, prosperous and sustainable future for the people of Derby through shared vision and leadership.*

Derby City Partnership was set up in 1995 and has achieved real success in creating change and improvement in the city. Since 2002 it has been the Local Strategic Partnership for the city.

Our members include:

- public services
- businesses
- community and voluntary groups
- individuals who live or work in Derby.

# Our vision – A city for all ages

## 2020 Vision

Derby City Partnership is responsible for the preparation and implementation of Derby's community strategy – the 2020 Vision. The 2020 Vision sets out our social, economic and environmental aims for Derby, based on the city's needs. We aim to improve life in a wide variety of ways in order to make a lasting and positive difference to the quality of life of communities, organisations and individuals in Derby, both now and in the future.

## Our priorities for 2006-2009

Every three years we update our 2020 Vision and identify new priorities for the next three years.

### *A city centre for all ages*

We will work to create a city centre which people of all ages and backgrounds will be able to enjoy at any time.

### *Improving Derby's deprived neighbourhoods*

We aim to focus on Derby's deprived neighbourhoods, so that opportunities for people living there are the same as for people living in the rest of the city.

## How will we achieve our vision?

Derby City Partnership brings the work of all partnerships in the city together to make the best use of all resources. Some 250 separate organisations are involved in our work reflecting a wide range of interests such as local authority services, health care, police, education, culture, media, business support, engineering, retail, regeneration, environment, employment, faith, community and race equality.
